

Water and Energy Technologies for a Sustainable Future

Princeton University seeks a distinguished senior or mid-career scholar to provide leadership in the water-energy nexus within the Andlinger Center for Energy and the Environment (acee.princeton.edu). Candidates from all disciplines in engineering and the sciences are welcome. The successful candidate will receive a joint faculty appointment between ACEE and an academic department consistent with the candidate's particular expertise. We are seeking candidates whose research focuses on the water-energy nexus, including but not limited to: energy-efficient water/wastewater treatment, wastewater to energy technologies, sustainable water-resources management. Complete applications, including cover letter, curriculum vitae, and succinct descriptions of teaching and research interests should be submitted online at <https://jobs.princeton.edu> (see requisition # 1600921). Candidates are encouraged to apply before December 15, 2016. Princeton University is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law. This position is subject to the University's background check policy.
