

Andlinger Center for Energy and the Environment – Faculty Position

Princeton University seeks a tenured, distinguished full or associate professor to provide leadership in the areas of sustainable energy technology development in the Andlinger Center for Energy and the Environment (acee.princeton.edu). Candidates from all disciplines in engineering and the sciences are welcome to apply. The successful candidate will be jointly appointed between the Andlinger Center and an academic department consistent with the candidate's expertise. Specific research areas of interest include: long-term energy storage, smart and resilient cities, and energy-water nexus, with an emphasis on systems-level expertise. Princeton and the Andlinger Center are especially interested in qualified candidates who can contribute, through their research, teaching, and/or service, to the diversity and excellence of our academic community. Complete applications, including cover letter, curriculum vitae, and succinct descriptions of teaching and research interests should be submitted online at <https://www.princeton.edu/acad-positions/position/3761>.

Candidates are encouraged to apply before December 15, 2017. Princeton University is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law. This position is subject to the University's background check policy.
